

ProCellution Product Features

Feature	ProCell	ProVue	Description
Document Viewer	●		Display and enforce operator viewing and acknowledgements
Operator Authorization	●		Control machine operation by biometric fingerprint reader. No more passwords or keys!
Production Counts	●	●	Real time production counts by day, shift and hour.
Fault Acknowledgment	●		Inhibit machine operation and confirm fault with fingerprint authorization.
Container Label Printing	●		Customizeable container label printing. Auto pack size print mode. Restrict labels to active part numbers. Visual selection of parts.
Serialized Label Printing	●		Customizable serialized part labels. Include date, shift and operator id.
Production Reporting	●	●	Historical production count reports.
Downtime Reporting	●	●	Historical downtime reports. Sensored and non sensored faults. Configurable reason codes. Inhibit machine operation on downtime event.
Finished Goods Reporting	●	●	Historical finished goods reports.
Scrap Reporting	●	●	Historical scrap reports. Scrap parts by serial number or part number.
Integration with 3rd party Applications	●		Run additional 3rd party applications at the same time on the same machine.
Exportable Data	●	●	All process data is exportable to Microsoft Excel.
Shopfloor Production Monitor		●	Real time production monitor all on a single screen.
Document Delivery		●	Electronically distribute documents directly to the shopfloor. Enforce user acknowledgement and viewing. Inhibit machine operation on high priority documents.
Downtime Monitoring		●	Real time monitoring of downtime conditions on a shopfloor wide basis.
Centralized Management		●	Centralized managements of ProCell stations on the shopfloor.
Operator Management		●	Manage machine operators from a single location. Control machine access remotely.
Data Buffering and Fault Tolerance		●	Built in fault tolerance. Mutliple levels of data buffering for outage isolation and flexibility.
Enhanced Reporting		●	Additional reports, charts and graphs.
